PROFESSIONAL SUMMARY

Aspiring Java Full-Stack Developer with hands-on experience building full-stack web applications using Java, Spring Boot, React.js, and MySQL. Skilled in designing RESTful APIs with layered architecture, implementing JWT-based authentication, and delivering end-to-end features including CRUD operations, database integration, and responsive UIs. Electronics and Communication Engineering graduate with strong problem-solving skills, backed by published research and hackathon recognition in AI-driven healthcare diagnostics.

SKILLS

Programming Languages: Java, JavaScript, SQL.
Frontend Development: HTML, CSS, React.js.
Backend Development: Spring Boot, Hibernate, REST APIs.
Database: MySQL
Core Concepts: OOP, DBMS, Exception Handling, Collections
Tools: Eclipse, IntelliJ IDEA, Postman, Git, GitHub
Soft Skills: Communication, Problem Solving, Teamwork, Adaptability

PROJECTS

Job Work and Production Management System Sep 2026 – Oct 2026
Individual Project – Developer

- Developed a Java-based application to manage customers, job orders, and production workflows.
- Implemented CRUD functionality for order tracking, production updates, deliveries, invoices, and payments.
- Configured Hibernate ORM for database persistence, entity mapping, and transaction management.
- Structured the application using reusable Java classes and MySQL database integration.

Technologies: *Java, Hibernate ORM, MySQL, Maven, HQL*
GitHub: https://github.com/PavitaS/Jobwork-and-Production-Management-System

Cable Service Management System Feb 2026 – Aug 2026
Individual Project - Developer

- Developed a full-stack application to manage customers, monthly payments, set-top boxes, and customer history.
- **Built REST APIs using Spring Boot, Spring Data JPA, and Hibernate.**
- Implemented CRUD operations, search, pagination, and dashboard features.
- Secured the application using Spring Security and JWT authentication. Integrated React.js frontend with MySQL database.

Technologies / Tools Used: *Java, Spring Boot, Spring Security, React.js, MySQL, Spring Data JPA, Hibernate, REST APIs*
GitHub: https://github.com/PavitaS/Cable-Service-Management-System.git

Construction Attendance and Payroll Management System Jan 2026 - Jul 2026
Individual Project - Developer

- Developed a full-stack application to manage construction workers, daily attendance, and weekly payroll.
- Implemented CRUD operations, attendance history, and payroll calculations using Spring Boot and MySQL.
- Built a dashboard to display employee and attendance details.Created responsive React.js interfaces and added PWA support for mobile and desktop access.

Technologies / Tools Used: *Java, SQL, Spring Boot, React.js, MySQL, REST APIs.*
GitHub: https://github.com/PavitaS/construction-attendance-system/

A Technological Shifting Paradigm in Detection and Classification of Cardiopulmonary Disorder Aug 2023 - Feb 2026
Academic Project

- Developed an AI-based lung disease detection system using lung sound analysis and chest X-ray images to identify tuberculosis, pneumonia, and COPD.
- Applied machine learning and deep learning techniques for disease classification and abnormality detection.
- Achieved **85.6% accuracy, 91.8% recall, and 0.93 AUC**.

Technologies / Tools Used: *AI, machine learning, deep learning.*
GitHub: https://github.com/AkashA67/lung_disease_detection.git

WORK EXPERIENCES

Intern | JSW Steel Ltd
- Mastered **industrial automation**, focusing on **PLC** and **SCADA systems** used in **steel manufacturing**. 2025-06-24 - 2025-07-08
- Gained practical knowledge of **instrumentation**, **process monitoring**, and **electrical systems** to support efficient industrial operations. *On-site• Salem, Tamil Nadu*

Technologies / Skills Used: *Industrial Automation Basics, Process Monitoring, Electrical Systems*

Intern | Salem Steel Plant - SAIL 2025-06-09 - 2025-06-23

On-site • Salem, Tamil Nadu

- Observed **stainless-steel manufacturing workflows** and gained exposure to large-scale industrial operations.
- Supported **preventive maintenance activities** and learned motor troubleshooting and control panel servicing
- Maintained **daily technical observations and records** while learning about electrical systems, equipment reliability, and industrial safety practices.

Technologies / Skills Used: *Industrial Operations, Electrical Systems, Safety Awareness*

Intern | NCR Corporation Pvt Ltd Jun 2024 - Jul 2024

Jun 2024 - Jul 2024

On-site • Chengalpattu, Tamil Nadu

- Assisted in **ATM module assembly and functional testing**, gaining exposure to manufacturing and quality assurance processes.
- Worked with **APTRA and PANGEA** for ATM module testing and diagnostics, including observing error codes and test results.
- Gained practical exposure to **troubleshooting, sensor validation, SMPS checks, alarm testing, and quality verification** activities.

Technologies / Skills Used: *ATM Assembly & Testing, Quality Awareness*

EDUCATION

Bachelor of Engineering – ECE | Chennai, Tamil Nadu

Sri Sairam Engineering College

Oct 2022 - Apr 2026

CGPA: 8.37

AWARDS & ACHIEVEMENTS

- **Build Together AI SDG Hackathon**: Ranked 19th among 500+ participants and won a ₹12,000 cash prize for an AI-based healthcare project.
- **Research Publications:** Published and presented two research papers at international conferences.
- **Research Presentations**: Presented research papers titled "*A Non-Invasive, Efficient Interpretation of Heartbeat Monitoring System*" and "A Technological Shifting Paradigm in Detection and Classification of Cardiopulmonary Disorders."

CERTIFICATIONS

- Java Masterclass 2025 - Udemy
- Data Science for Engineers - NPTEL
- Computer Networks and Internet Protocol - NPTEL
- Machine Learning and Deep Learning Fundamentals and Applications - NPTEL
- Design Thinking - A Primer – NPTEL
